

## Rubik's Cube Armageddon

### COMPETITION GUIDELINES

Organized By:

Department of Electrical and Electronic Engineering (EEE)  
Islamic University of Technology

Technical Support:

IEEE IUT Student Branch

**IEEE**  
IUT Student Branch

## Rules and Regulations

Rules of the competition are modified due to circumstances.

1. Cubers will have to use their own cube in the competition.
2. Usage of silicone gels or other lubricates are allowed.
3. There will be 3 rounds, described below:

### **Round 1:**

Participants will sit on the booth accordingly and will solve for 3 consecutive times. We will average the best 2 and rank the participants accordingly.

### **Round 2:**

We will select top 25 and then make them go for a 5 solve round, averaging 3. (Excluding best and worst timing, though all will be recorded).

### **Round 3:**

This is the round that where we will have a display of the first 10 on the main stage. They will go for a single attempt with the same scramble.

4. As we cannot manage so many stack mats, we will use android app to time. The name of the app will be decided on test.
5. Inspection time will only be given 15 sec and in the 3<sup>rd</sup> round. For other rounds a 1 sec inspection time will be given, which actually will be there for the time to take cover from the cube in front of the cuber.
6. Competition will only be for 3x3 cubes.
7. We will follow WCA standard rules for incidents. Just to remind one serious event is that, **if any incident occurs, such as, popping out of a corner piece (obviously not intentionally), the participant can show it to the judge attending him but must not stop the timer in between.**
8. Manipulating timers will result a disqualification.
9. **In all cases, decisions taken by the organizing committee will be final.**
